

The New exploreMOhealth Map Builder

Start Mapping Now:
<https://exploreMOhealth.org/map-builder/>

What's New?

- **Enhanced Data Selection** interface highlighting recently updated data and most used data by others on exploreMOhealth.
- User-focused interface with **larger mapping area** and easy access to **saved maps**.
- More **export, download, and sharing options** to increase the reach of your work.

Why use the Map Builder?

- Build **customized state, county, and ZIP Code-level maps** with relevant and trusted data on hundreds of **health rankings, health factors, health outcomes, and demographics**.
- **Answer important questions** like: “Which conditions affect my county more than the rest of the state?” and “Where is the health divide in my county?”
- Create multi-layered maps to **show the complexity of issues in your area**.
- **Access tailored tools** like Mask, Select Data, and Swipe Layer.
